Fixing your computer has never been more...

By [vegmilove3](#) - Sep 8, 2010

I have been a customer for over four years and I will always return. My **Computer Guru** is the only one I trust with my **computer**. Not only is the quality of service and expertise outstanding, the staff are friendly and courteous. They are in business because they care about you! I almost love it when my **computer** crashes because it's like visiting an old friend. Why would anyone go anywhere else? - Denise Schiller

[Great local business](#)

By Alex B. - Sep 12, 2005

Like most other stuff,, I always enjoy getting my **computer** peripherals from a local business rather than a CompUSA because of how awful the service is at those places. This place is great because they have cheap desktops, reasonably-priced ...
